## Planners Comments

What Watermead lacks in technical difficulty it makes up for it in size. I planned to keep you out for a long time and take the faster runners down to the far end and hope they wouldn't quite make it up to the north end. I seemed to be successful in that aim. Unfortunately putting out the controls took forever, despite setting the alarm for six in the morning, and I was in a state of panic at 9.30 with only half the controls put out. But despite a few glitches it all seemed to work out on the day and I hope you all enjoyed a nice long run in very pleasant weather amongst the geese and swans. Apologies for the few vandalised controls but I suspect we got off quite lightly.
