Organisers Comments

After everything was set up and Roger's car was out of the ditch it was a relaxed small event. The registration team did not want to run before The Archers had finished on the radio. The start and finish was run so well by friends who could remember how it was done before SI. The cakes at the club shop were amazing and everyone seemed happy. Thank you to everyone who came to help and run and to Mr Mosley for lending us his forest and tow rope.

Steven Davidson

Planners Comments

The initial courses were based on the first planner's suggested sites and routes. I made changes where I could not find the control site. All courses were restricted by the need to cross the stream in safe places, this pushed the lengths to the upper limit of the guidelines. The Orange course made use of the major paths/rides through the area, but they were significantly overgrown by the time of the event. This made the course too long and too difficult. An unmarked gate on the way to the first control also confused one young pair. The pits on the technical courses made for some difficulties. The planner could find them either! Yellow marker tape does not show up with so many yellow flowers.

Hopefully most enjoyed their courses and had a reasonable day out.
