PLANNERS COMMENTS

This was my first event as a planner. I hope you all enjoyed it as much as I did.

I had not appreciated just how much hard work goes into actually planning and organising an event (however small), and I would like to thank all those people who have helped me out.

I got to spend a lot of time on the course when there was no-one else around, both planning the courses and putting out controls. I was absolutely amazed just how much more wildlife there is to see when you are not charging round looking for control points. Me and the ducks did begin to think the mist would never lift on the morning of the event, but thankfully we had a lovely day in the end.

There were a few minor hiccups on the day with one control being moved about 20 feet, another one moving about 20 yards and one control disappearing altogether. I hope this did not spoil any ones run too much. I had been warned that controls can go missing at Watermead, and I was half expecting to have to go wading / swimming to get them back. At least it never came to that.
