The score was based on one minute a control plus 6 bonus controls with an extra 5 minutes, anyone arriving after their cumulative time acquired was penalised heavily. So lots of low or minus times/scores for this event!

The event was further penalised by the control descriptions being in shortest route order rather than corresponding with the numbers on the map.

So all descriptions were on the list just in the wrong order!

Despite the rain and poor visibility, hopefully most competitors enjoyed finding at least some controls and then obtained refreshments at the presentation afterwards.

Apologies to those for whom there isn't a result. There are also some control cards without names, so please get in touch if you would like to follow up on this.
