Winter League 2007/08  
Bosworth Night Event  
Wednesday 23<sup>rd</sup> January 2008

## Results

These results have been extracted from the printouts. We trialled a new download box and printer for the first time and have not yet been able to extract the data from it. This also means that we cannot get at the split times. If we do manage to interrogate the box then we shall update these results

I hope you liked the start with a bit of Sprint-O, it gave a bit of variety and saved having an extra loop around the park. The only downside to the event was that the SI box at the top of the steps was stolen after the event meaning that the event made a substantial loss.

Thanks to all who attended making it one of our best attended winter league night events, particular thanks to the RAFO cadets who made a very long journey and had excellently quick runs. The final event of the series is on Wednesday morning 13<sup>th</sup> February at Western Park.

Many Thanks  
Peter Hornsby
